SUMMARY

I have one year of knowledge in Java Full Stack Development, including Core Java, OOPs, SQL, HTML, CSS, JavaScript, and basic backend technologies. I am interested in improving my skills through practice and projects.

EDUCATION

Aditya College of Engineering and Technology <i>B.Tech in Artificial Intelligence & Machine Learning / CGPA: 8.33</i>	2022 – 2026 <i>Surampalem</i>
Pragathi Junior College <i>Intermediate (MPC) / Percentage: 90.1%</i>	2020 – 2022 <i>Samalakota</i>
Z.P.P High School <i>Secondary School Education / CGPA: 8.4</i>	2019 – 2020 <i>Kattamuru</i>

PROJECTS

- Student Companion**
Technologies: HTML, CSS, Java, JavaScript, SQL
 - Developed a web application to help students manage academic activities.
 - Included features like attendance tracking, reminders, and notifications.
 - Helped students organize tasks and manage time effectively.
- Startup Success Prediction using Machine Learning**
Technologies: Python, Scikit-learn, Pandas, NumPy, Visual Studio Code
 - Developed a machine learning model to predict startup success using funding, market, and team-related features.
 - Performed data preprocessing, feature scaling, and model training using Python and Scikit-learn.
 - Evaluated model performance using accuracy, confusion matrix, and classification metrics.
- Responsive Personal Portfolio Website**
Technologies: HTML5, CSS3
 - Designed and developed a responsive portfolio website using HTML5 and CSS3.
 - Implemented layouts using CSS Flexbox/Grid and media queries.
 - Improved accessibility and user experience through clean styling.

SKILLS

Programming Languages: Java, Python
Frontend Development: HTML, CSS
Backend Development: Core Java, JDBC, Basic Spring Boot
Database: SQL
Data Analysis & ML Libraries: NumPy, Pandas, Matplotlib, Scikit-learn
Tools: Microsoft Excel, MS Word
